Tasks required of those in the position of Stormwater and Wastewater Crew Leader include, but are not limited to:

- Supervises and participates in the maintenance and repair of stormwater and wastewater operations.
- Responsible for the general maintenance and upkeep of the surrounding areas of the stormwater and wastewater stations.
- Oversees the loading and transporting of equipment, materials, pumps, and any other supplies in preparation for work.
- In the absence of the Superintendent, assigns tasks to workers in the field and inspects work in progress to assure conformance with instructions.
- Rebuild and repair wastewater and stormwater pumps when applicable.
- Conduct basic electrical work in the stormwater and wastewater station control panels.
- Ensure that Maintenance Workers are abiding by general safety practices while conducting daily work, including wearing protective equipment such as eye/face protective gear, ear protection, gloves, steel-toe boots, and other equipment as necessary based on the tasks.

- Supervises the maintenance and upkeep of machinery and tools used by the crew as well as Town equipment; repair as needed.
- Investigates complaints and communicate plan of action to Town officials and the public.
- Maintain hours log of wastewater and stormwater stations activities.
- Participate in regular meetings where work assignments are issued.
- Participate in monthly safety meetings and abide by all safety regulations.
- Conduct emergency preparedness activities in the event of a natural or man-made disaster, and serve as essential personnel before, during, and after for relief and clean-up efforts.
- Regularly on-call for emergency situations related to wastewater and stormwater issues.
- Provide support to other public services divisions as needed.
- Performs related duties as assigned.

KNOWLEDGE, SKILLS AND ABILITIES

- Thorough knowledge of the principles and practices of repair and maintenance of wastewater and stormwater systems.
- Thorough knowledge of the occupational hazards and necessary safety precautions of the work.
- Considerable knowledge of the use of related equipment and materials.
- Knowledge of departmental policies and procedures, traffic and utility regulations and other related laws and regulations.
- Ability to record data accurately.
- Ability to assign and supervise the work of others, providing training and leadership to a small crew.
- Ability to establish and maintain effective working relationships with supervisors, peers, subordinates, and citizens, and to work as an effective team member.

MINIMUM REQUIREMENTS

- High School Diploma or GED equivalent
- Must possess a valid Florida Driver's License
- Minimum of five (5) years of experience in wastewater and stormwater maintenance and repair
- Certification in water pump installation and repair required.
- Florida Wastewater Collection System Operator Level C or higher preferred
- Broward County “Know the Flow” Certificate of Completion (to be obtained within six (6) months from start date)
- Stormwater Operator Certification Level I Preferred
- An equivalent combination of education and experience may be considered
